

POLISH-FINNISH-SWEDISH COLLABORATION ON ENERGY EFFICIENCY IN HEALTHCARE:

Energy and Climate smart hospitals in practice

28 SEPTEMBER · 2021

13.00 - 16.00

16.00 - Mingle

EMBASSY OF SWEDEN
UL. BAGATELA 3
00-585
WARSAW, POLAND

LIVE AND ONLINE

This event is a part of the project "Smart energy for hospitals", partly financed by the Swedish Energy agency and managed by Energy Machines AB, in collaboration with Nordic Center for Sustainable Healthcare. For more info: www.nordicshc.org

HOW CAN POLISH HOSPITALS REDUCE THE ENERGY CONSUMPTION?

We invite key actors within the Polish Healthcare system to take part in this initial discussion with purpose to build up a Polish-Swedish-Finnish collaboration on Energy and Climate smart healthcare.

Hospitals are energy intensive when it comes to both buildings and operations and there is a large potential for reducing both CO2 and cost for fuel and energy. During the meeting we will discuss the technologies that makes it possible as well as financing for projects. This meeting is also a start for establishing collaboration between Poland, Sweden and Finland on energy and climate smart healthcare.

SOME OF THE BULLETS TO BE DISCUSSED

- **A pre-study** is currently conducted at Szpital Wojewódzki im. Prymasa Kardynała Stefana Wyszyńskiego w Sieradzu with the aim of establishing the potential of saving energy in the buildings, innovative energy solutions are tested for improving energy performance of the hospital. The pre-study will be represented at the meeting to show the potential of energy and cost savings in Polish hospitals as well as financing solutions for implementation.
- **Examples from Swedish and Finnish hospitals:** What are the best practices in the Nordic Countries when it comes to energy- and cost saving? From plus energy buildings to specific technologies within everything from ventilation and lighting to renewable energy and heating/cooling.
- **How to finance energy-projects:** Financing the project is as important as the technology. There are several new opportunities that can be used and will be developed in collaboration with relevant stakeholders.
- **Innovation procurement:** Experiences from the EcoQUIP+ and other projects.
- **Grönköpingkiö:** The World's greenest Hospital. Get an insight in the best practices from the Nordic countries in a digital format.
- **Collaboration between Poland, Finland and Sweden:** Through collaboration we can gain better results, exchange knowledge and ideas.
