WHAT IS GRØNNKÖPINGKIÐ?

Grønnsköpingkið University Hospital is a place to find inspiration and information on workable solutions that can increase the sustainability performance for hospitals and other healthcare facilities.

The website will be a digital catalogue where different sustainable solutions for healthcare are gathered and described. The different categories will appear as icons across the hospital picture. If you click on one of the icons, a list of different solutions will appear and you will be able to find information on their sustainability performance, locations where it is installed today, contact information to suppliers and more.

NCSH will direct inquiries to worldsgreenesthospital.org for potential customers to contact companies directly.

Grøn is the Danish word for green with the Nordic letter ø

Köping is a common part of old Swedish city names and refers to trading - typical Swedish ö

ð is a letter used in Icelandic, Faroese and Elfdalian. It was also used in the rest of Scandinavia during the Middle Ages.

(Grøn)(n)(köping)(ki)(ð)

If you add an n to the Danish Grøn you get the Norwegian word for green - **Grønn**

ki is the last part of Helsinki - the Finnish capital and the last part in the Finnish word for city - kaupunki

WHY GRØNNKÖPINGKIÐ?

The Nordics are considered to be in the forefront when it comes to sustainable healthcare and today there is a great interest from international actors who wants to know more about Nordic Sustainable Healthcare.

NCSH regularly receives inquiries from international actors who are interested in knowing what solutions and techniques that are installed and used in Nordic hospitals. Grønnsköpingkið will make it easy for hospital planners/builders etc. to get a view of what different sustainable solutions that are on the market today.
