ABOUT NCSH

Nordic Center for Sustainable Healthcare (NCSH) is a cross-sectoral platform involving stakeholders, organisations, projects and expertise in the area of sustainable healthcare – all sharing the goal of creating a more sustainable healthcare sector.

Our goal is to make the knowledge and solutions more accessible and visible worldwide. NCSH includes companies, hospitals, regions, universities, NGO's, clusters and more. Together they form an eco-system that generates collaborations, projects, business, knowledge and new innovative ideas.

THE 7TH NORDIC CONFERENCE ON SUSTAINABLE HEALTHCARE

The 7th Nordic Conference on Sustainable Healthcare, hosted by NCSH at Best Western Malmö Arena Hotel, promises to be an unparalleled meeting of minds. Anticipate a variety of activities scheduled for the day preceding and following the event.

This assembly serves as a focal point for leading figures across Europe delving into the realm of sustainable healthcare. Imagine a convergence of hospitals, businesses, regions, universities, and other actors collaborating to develop environmentally-friendly and resilient healthcare systems.

Let us come together, create connections and collectively enable eco-conscious initiatives.

Committed to sustainable healthcare

The world of health never stands still. And neither have we.
At every moment that counts, we will be there.

From evaluating and continuously acknowledging the environmental impact of our products, to putting in our best efforts to optimise tools and solutions to better address relevant issues affecting society and the planet.

At BD, our strategic partnerships across the patient journey, combined with our manufacturing and distribution scale, and 125 years of experience have made us uniquely able to recognise the importance of the role we as a manufacturer have to play to rise to one of health's biggest challenges.
